Best Practices, Clean Code and Enthusiasm

sdi

SDI is a privately held Web and Software Development Company with offices in India, UK and the USA. Our Board of Directors is represented by accomplished American and Indian Directors who guide the Policies and progress of our company with more than 13 Years of Project Management and Development experience.

We speak, write and understand English fluently. We have Sr.Managers in all Major departments like Projects, Human Resources, Finance, Legal and Marketing and we are available 24*7.

We combine strengths provided by

- Skilled Indian Software developers
- Infrastructure provided by IBM, HP, RedHat, Microsoft
- Internationally experienced Project Managers
- Low costs of operations in India

to provide great value, professional quality Software Apps and websites. We have customers in more than 40 Countries and in almost all of the 50 States in the USA.

The difficult we do immediately.
Impossible comes a little later.

We maintain complete transparency about our capabilities, listen to needs & respond with on time deliveries at lowest possible costs. We safeguard our clients interests by using Stock Images which are clear on Titles or Client provided, Signing NDA's, Creating codes from scratch in line with Internationally accepted Best practices and using 3rd Party codes only on a known and agreed basis with our clients.

Our Ordering processes are completely Online and payments are accepted via Credit Cards securely Online. Wire Transfers can also be made to our Bank accounts in New York, London and Mumbai.

We take great pride in our accurate estimations on time and costs. Projects can start within 48 hours of receiving Order Confirmations.

You will feel like we are next door, only more professional.

Infrastructure and Resources

Our Infrastructure consists of Dedicated Servers (At Server Farms in the USA and the UK), PC's, Laptops, Apple Macs, Video Conferencing, Sound Stations, VOIP, Long Distance dedicated Phones, Hi-Speed Internet and secure Chat facilities. Our offices have restricted access via Biometric Cards and have reliable Power/Internet Backups.

Our staff includes Chief Technical Officers, Project Leaders, Sr.Programmers, Designers, Testers, Technical Writers, SEO/SEM Experts. We also provide Dedicated Hosting services at Server Farms in the US/UK.

In specific projects, we work onsite at client locations and also work remotely off client servers.
